

St. Paul's Church Nursery School

Aims

Vision Statement

“We are a Nursery that offers high quality education and care that is available to children and families from all sections of the local community, and based in a loving environment. The Nursery is an integral part of the St. Paul's Church vision to demonstrate Christian love and service in the Community.”

In order to achieve this we aim to:-

- Provide a safe, secure and loving environment, in which it is exciting to learn and grow.
- Emphasise the value of play as the medium through which children achieve most in the early years.
- Encourage enjoyment of learning, with a desire to investigate and question, through adult involvement and appropriate intervention.
- Plan and provide a broad, stimulating and balanced curriculum both indoors and out.
- Use our knowledge of how children develop and learn, combined with our observations of children's experiences and interests, to enable them to make progress in their learning.
- Offer places to children with special educational needs and recruit or train staff to help them fulfil their own individual potential.
- Provide opportunities for personal and whole school development through further training of staff, volunteers and Management Committee.
- Foster respect, understanding and co-operation throughout the school.
- Build on the foundations already laid down by the parents/carers and continue to work in partnership with them.
- Work in partnership with other educational establishments, health and social services, sharing good practice and keeping informed of new early years initiatives.
- Incorporate Christian values, beliefs and worship into our programme whilst remaining aware of and respecting individual's views and opinions and those of different faiths.
