

The Return of the King(s Chamber Orchestra)

Concerts where you live!

KCO are pleased to announce their imminent return to concerts in a variety of Locations around the country. See the list below and check our website and click on the date for details. We can't wait to see you all.

The orchestra has an enviable reputation, not just for excellence, but for zany out of the box surprising and highly entertaining concerts both for families (Teddy concerts) and evening audiences. With their unique humour and touching stories, beautiful music ranging from film and TV highlights, to romantic classics, we anticipate tears and laughter, especially as we have been deprived of live music for so long.

The occasion of KCO's return from the pandemic blues, takes us on the road to Christmas with some of the most beautiful music the group have ever played; Tchaikovsky, Morricone, Grieg; Mary Poppins and Gene Kelly may appear, and there might also be an element of Highland Fling and exploration of what Christmas might be like for a Kossak!

KCO is a professional chamber orchestra that formed in the 1980s as a Christian community, and works to enable Churches around the country to let their hair down, invite the neighbours and pass on the blessing of amazing live music throughout their communities. Presented by founder and impish cellist and conductor Gerard Le Feuvre every concert is uniquely tailored to who-ever turns up! We need this more than ever so don't miss this wonderful visit and make some new and vibrant memories to carry us on to Christmas and happier times...

The Teddy Concerts:

The most interactive, child friendly (for ages 0 to 90), hilarious and heartwarming family concerts you'll ever come to. Tunes you'll know, tunes you'll have never heard before, and many fun lessons learned. All our instruments are well treated, have volunteered to do this freely, and belong to the league of "Wonderfully Inspiring Families Forever" (WIFF). We encourage every family member to bring a favourite Teddy and a smile.
